Short Description

Non woven bag

Description

Non-woven bags are a great alternative to cotton bags. They are comfortable, strong and a great replacement for a backpack and are suitable for shopping or carrying other items. Great for replacing plastic bags to get reusable ones. The print is placed almost on the entire size of the bag on one or two sides (up to 26x26cm).

Standard size is 38x42cm, with short handles (35cm unfolded). There is also a possibility to choose with long handles (70cm unfolded).

Thickness 80-100 g / m2.

Non-woven bags without bottom (sides sewn together).

Choose from many colors.

The price is calculated with one color logo on one side, 80 g / m2, short handles, the chosen bag color does not affect the price.

Production time up to 2 weeks.
